OBJECTIVE

Experienced front-end developer specializing in creating responsive and user-friendly web applications using HTML, CSS, JavaScript, React, Vue and Next. Skilled in delivering successful projects for clients and independent initiatives, with a strong focus on quality and functionality.

EXPERIENCE

Front end Developer Syad for Communications & IT

📅 Apr 2024 - Present 📍 Egypt · Remote

Front-end Developer specializing in React, focused on designing and implementing intuitive, user-friendly interfaces. Combines strong visual design skills with front-end development expertise to enhance user experiences.

PROJECTS

wildlife-portal

📅 Jun 2024 - present

- Skills: React - typescript - tailwind - Mantine
- View: <https://habitat.ncw.gov.sa/wildlife-portal>
- Description: A centralized platform for managing and exploring wildlife data across Saudi Arabia. It provides tools for data visualization, tracking, and analysis, empowering researchers, conservationists, and policymakers. The platform fosters awareness and informed decision-making through intuitive interfaces and real-time data access.

wildlife-explorer

📅 Apr 2024 - present

- Skills: React - typescript - tailwind - Mantine
- View: <https://habitat.ncw.gov.sa/wildlifeexplorer>
- Description: An interactive platform developed to explore and visualize wildlife distribution across Saudi Arabia. This project includes rich data mapping, user-friendly navigation, and dynamic search capabilities to aid in research and awareness efforts.

Job-Nest

📅 Jun 2025 - May 2025

- Skills: React - typescript - tailwind - Mantine
- View: <https://front-end-job-nest.vercel.app>
- Description: A job portal project built with React, TypeScript, and Tailwind CSS. It features a responsive user interface, dynamic job filtering, and a job board for easy job searching.
